Born from a love for independent galleries that infuse creativity into city neighborhoods, Modern Art was launched in 2011 as a pioneer in affordable luxury eyewear, blending sophistication with accessibility.

The Modern Art woman possesses a keen eye for timeless beauty. She values both style and affordability, striking a perfect balance between elegance and everyday demands.

With Modern Art eyewear, she discovers captivating designs that complement her vibrant lifestyle. Whether drawn to a bold or classic palette, she can curate her own Modern Art collection, season after season.

Balanced hues, subtle metallics, and pops of color, deep silhouettes, high quality materials, bold and elegant designs.

Features include handmade acetate, stainless steel, multifaceted gemstones, and spring hinges.
